## Tax

Tax matters can be complex, and getting on the wrong side of a state or federal tax controversy can be a costly proposition. By bringing in an experienced tax law attorney, businesses and individuals can mitigate their exposure while avoiding unnecessary stress and commitment of resources.

The attorneys in our Tax department provide clients with tax advice associated with the purchase and sale of businesses as well as planning for the next generation of principals. We work with individuals and organizations such as C corporations, S corporations, partnerships, limited liability companies and professional associations to structure transactions and succession plans that serve our clients' business objectives while mitigating their tax burden under federal, state and local law. Our tax attorneys also work closely with the attorneys in our Trusts and Estates department to ensure smooth transitions between generations in all aspects of the estate planning and wealth transfer processes.
